Medium-sized companies trust in RemPro – selected customer references

„In their work, the team at RemPro continuously took EMV's corporate goals, the different ways of working and needs of the company's divisions, as well as EMV's service concept into account. RemPro developed a concept for remote work whose introduction was supported and endorsed by all EMV HR managers without exception.“

Ulf Rebenschütz, CEO of Europa Möbel-Verbund GmbH & Co. KG

"The topic of remote work has come up again and again for years. Together with RemPro, we approached the topic in a structured way. Finding an approach suitable to the municipal utilities was important to us. Ms Bartels and Ms Schulz considered the needs and ideas of employees and management right from the start and always kept our task as a service provider in mind.“

Volker Stammer, CEO of Stadtwerke Bad Salzuflen GmbH

**RemPro supports you personally and with a focus on results.
